Product Key Features

- Provides efficient constant power for CCTV networks
- Models are exceptionally energy efficient
- Meet or exceed International energy efficiency level IV
- 24 VAC and 12 VDC secondary output models
- 120 VAC and 230 VAC power source models
- Safety agency certified

Overview

The Bosch UPA Series of Power Supplies is designed specifically for the continual use demands of professional surveillance products. While UPA models are used primarily with security cameras, their small size and high energy efficiency rating also make them ideal for powering a wide range of other low power security products, including many Allegiant® system accessories and control devices.

The UPA 60 Hz models are designed specifically to meet the strict efficiency standards and laws being adopted in the United States. These efficient power supplies meet or exceed the International Energy Efficiency Level IV requirements.

Axent can supply and install these products.
