PRODUCT SPECIFICATION SHEET (AX-VFCLNS)

BOSCH VARIFOCAL LENSES

Product Key Features

- Real-time recording and playback in genuine 4CIF resolution
- Advanced H.264 hardware compression
- Integration with the Bosch Video Management System and third party management software using VideoSDK
- Local storage on four front-accessible hard drives
- Control Center software for centralized remote viewing, playback, and configuration

Overview

For optimizing angular fields right on site, varifocal lenses are the most versatile and practical solution available. These lenses allow for setting virtually any angle of field, which maximizes surveillance effects. Installers do not need to carry several different focal length lenses – and installation is more efficient because they can find the right angles of field without moving the camera set-up. If the field-of-view requirements change after installation, modification is simple by just altering the lens focal length settings.

Axent can supply and install these products.
