Product Ships with our Standard 12 Month Warranty

Overview

Axent manufacture indoor electronic session displays designed for easy viewing and professional presentation. These prominent high intensity displays can be presented in a full colour multi line layout in a range of different sizes and line configurations.

Axent's indoor session displays have a vast number of performance features, such as the sessions seating capacity with an easily programmable threshold, allowing the viewer instant seating updates. Axent also manufactures convenient aisle numbers. These bright and highly visible numbers are the easiest way to ensure the viewers experience is a professional and trouble free one.

Some of the options include:

- Electronic displays can be a single line or multi line layout
- Electronic displays can show a single color or multi color format – Red, green and yellow
- Controlled using Ethernet, Wireless Ethernet or hard wired
- Real time scheduling
