PRODUCT SPECIFICATION SHEET (AX-PRWF3)

LED WALLWASHER LIGHT, WHITE LED

Product Key Features

- Input Voltage: AC 100 ~ 240V 50/60Hz
- Lamp-house: White LED
- LED Quantity: 360 Purchase
- Max Power: 29W
- Beam Angle: 45°
- Protection Grade: IP65
- Projection Distance: 15~20m
- Material: Die-casting Aluminium
- Humidity: 10~90%
- Operating Temperature: -20°C~40°C

Overview

Axent's range of wallwasher lights use high power LED's to project a ray of light over walls and monuments. These wallwasher illuminants are composed from white LEDs and a programmable DMX controller. Our wallwashers utilise a digital tube address with fixed program and auto-inline function to ensure light is projected over an entire source being a sculpture, wall or alike.

Wallwashers can be used to illuminate sculptures, monuments, signage, buildings, sporting stadiums, bridges, landscapes and other small to large scale lighting effects requirements.
